Dear Client,

Re: SN-2026-0108 — Autocallable Contingent Coupon Notes linked to EURO STOXX 50 Index

Further to our conversation, we are pleased to confirm the indicative terms of the above transaction. Northbridge Capital Markets (Canada) Inc. will issue Notes in a total Notional Amount of USD 7.5 million (USD 7,500,000) under its Structured Notes Programme, Series 2026. The Notes were traded on 11-Aug-2026, will be issued on 18-Aug-2026 and mature on 18-Aug-2028. The Notes are linked to the EURO STOXX 50 Index (Bloomberg: SX5E Index).

The Notes pay a conditional Coupon of 9.75% per annum, payable quarterly, payable quarterly in arrears, on each Coupon Payment Date on which the Coupon Condition is satisfied. Coupon amounts accrue on a Actual/365 (Fixed) day count basis. No memory feature: a Coupon that is not paid because the Coupon Condition is not satisfied on the relevant Coupon Observation Date is forfeited and will not be paid at a later date.

Automatic Early Redemption: if on any Autocall Observation Date the closing level of the Underlying is at or above 100% of the Initial Level, the Notes redeem early at 100% of the Notional Amount plus the Coupon then due. Autocall Observation Dates: 11-Aug-2027, 11-Feb-2028.

Knock-in Event: the Notes are subject to a knock-in barrier observed continuously on each Scheduled Trading Day from the Trade Date to the Final Valuation Date (American observation) at a Knock-in Level of 60% of the Initial Level. If a Knock-in Event has occurred and the Notes have not been redeemed early, the Final Redemption Amount will be reduced in line with the performance of the Underlying.

All payments are made in USD by cash settlement and payment dates follow the Modified Following convention (Toronto, New York and London business days).

Please review the Annex and revert with any comments before we proceed to booking.

Kind regards,

Risk Factors (Summary)

An investment in the Notes involves significant risks. Investors may lose some or all of their investment. The Notes are unsecured obligations of the Issuer and are subject to the credit risk of the Issuer. Past performance, including back-tested performance, of the Underlying is not a reliable indicator of future performance. The secondary market, if any, may be illiquid; a bid price, where available, may be up to 3.00% below the theoretical value of the Notes. A 10% decline in the Underlying does not translate into a 10% decline in the value of the Notes; the relationship is non-linear.

This document is an indicative term sheet and does not constitute an offer, solicitation or recommendation. The Notes will be issued under the Issuer's Structured Notes Programme, Series 2026 and are subject to the Base Prospectus and the applicable Final Terms; in the event of inconsistency between this term sheet and the Final Terms, the Final Terms prevail. Not for distribution in the United States or to U.S. persons.
